YOUR UNIQUE YACHT DESERVES THE FLEXIBILITY OF ...

Modern yachts come in many sizes and with countless options. Whereas some are docked in the same slip year after year, other yachts cruise the world's waters in search of adventure; many others are transported over sea and over land to different ports to serve as a vacation base. Yachts today are equipped with highly sophisticated electronic equipment such as chartplotters and depth finders to multiple GPS navigational systems, flat screen TVs to satellite phone systems. Seldom are any two yachts alike - either in appearance or in usage.

Unfortunately, many insurance programs cover only certain geographic areas, specific hull values with fixed deductibles, forcing uninformed yacht owners to settle with a less than desired coverage plan. Mariners developed the Mariners Odyssey™ program to provide yacht owners with greater flexibility in their coverages, creating a unique plan that can fit each unique situation.
